

KHIZAR AHMED

Sugar Land, TX / [REDACTED] / [REDACTED] / [linkedin.com/in/khizar-ahmed9](https://www.linkedin.com/in/khizar-ahmed9) / github.com/khizarahmed9

A curious learner driven to understand how systems work down to the lowest level. Information Systems student with eleven certifications including CCNA, CompTIA CySA+, Security+, Network+ and A+, plus four years running a self-hosted Proxmox and pfSense lab. Seeking an internship or entry-level role in IT support, systems administration or security operations.

EDUCATION

Houston City College — Information Systems (in progress) August 2025 – Present

Kempner High School — High School Diploma (graduated early) May 2025

CERTIFICATIONS

Cisco CCNA — [Credly](#) — network access, IP connectivity and services, security fundamentals. August 2026

Microsoft Endpoint Administrator (MD-102) — [Microsoft Learn](#) — Intune device management. September 2026

AWS Certified Cloud Practitioner (CLF-C02) — [Credly](#) — cloud concepts, security, and core services. June 2026

CompTIA CySA+ — [Credly](#) — threat detection, incident response, vulnerability management. May 2026

CompTIA A+ — [Credly](#) — workstations, mobile devices, operating systems, and software. January 2026

CompTIA Security+ — [Credly](#) — threat and vulnerability management, risk mitigation, intrusion detection. December 2023

Also: CompTIA Network+ (June 2026), Google IT Support (February 2025), Google Data Analytics (December 2023), Google Cybersecurity (July 2023), PCEP – Certified Entry-Level Python Programmer (August 2023).

TECHNICAL SKILLS

Operating Systems: Windows, Linux (RHEL, Ubuntu, Debian, Fedora)

Networking: Cisco IOS, pfSense, OpenWRT, VPNs, VLANs, TCP/IP, DNS/DHCP, routing & switching

Hardware & Endpoint Support: PC/laptop repair, OS imaging, device configuration, mobile devices, troubleshooting

Virtualization & Identity: Proxmox, Docker, Active Directory, Group Policy

Cloud: Amazon Web Services (AWS), Google Cloud Platform (GCP)

Scripting & Automation: PowerShell, Bash, Python, Go, Rust

Databases & Security Tools: SQL, SIEM, IDS, Git/GitHub

Professional: Team collaboration, event planning and organization, technical communication and documentation, workshop instruction, problem solving

VOLUNTEERING

Chief Technology Officer — Computer Science Association, Houston City College 2025 – Present

- Part of organizing HackHCC (website development, sign up portal, emails), the first ever hackathon for Houston City College.
- Build and maintain the association's website, managing hosting, content updates, and routine upkeep.
- Plan, organize, coordinate with speakers for workshops.

IT Refurbishment Volunteer — Compudopt January 2026

- Diagnose and repair hardware faults on donated PCs and laptops, replacing components and verifying functionality.
- Wipe drives, reimage operating systems, and install software to prepare devices for redistribution to under-resourced households.

PROJECTS

National Cyber League (NCL) — Player April 2026

- 1st Place at HCC Individual and Team; 30th in Individual National and 23rd in Team National.

Self-Hosted Home Lab 2022 – Present

- Built and administer a Proxmox virtualization lab running Windows and Debian VMs and containers behind a pfSense firewall.
- Configured multiple Active Directory forests to practice identity, access management, and domain administration.
- Segmented the network with VLANs across pfSense and OpenWRT, set up DNS, DHCP and firewall rules to isolate lab segments, and deployed containerized services using Docker.
- Rebuild and document environments to test configurations and troubleshoot issues.

TryHackMe — Hands-On Labs ([Profile](#)) 2022 – Present

- Completed 280+ practical labs spanning Linux/Windows administration, Active Directory, and system security.
- Practiced system hardening, troubleshooting, and incident response across simulated enterprise environments.

Capture the Flag (CTF) Competitor ([CTFtime](#), [HackTheBox](#)) 2022 – Present

- Solve networking, web, and system security challenges in team competitions, applying hands-on analysis.

Roadmap.sh — Technical Writer 2024

- Wrote technical guides covering setup steps, tooling, and best practices for developer and IT audiences.
